

# Manufacture of 4- and 6-Cylinder Diesel Engines within the Engine Power Range Between 80 hp and 350 hp Conforming to Euro 4/5/6 Ecological Standards

## **A. Project Opportunity Description:**

### **A1. Project Name:**

Manufacture of 4- and 6-cylinder diesel engines within the engine power range between 80 hp and 350 hp conforming to Euro 4/5/6 ecological standards to automobiles and buses, Stage 3B and, in the perspective, Stage 4 – to off-road vehicles

#### **A1a. Short name:**

Manufacture of 4- and 6-cylinder diesel engines within the engine power range between 80 hp and 350 hp conforming to Euro 4/5/6 ecological standards to automobiles and buses, Stage 3B and, in the perspective, Stage 4 – to off-road vehicles

#### **A1b. Full name:**

Manufacture of 4- and 6-cylinder diesel engines within the engine power range between 80 hp and 350 hp conforming to Euro 4/5/6 ecological standards to automobiles and buses, Stage 3B and, in the perspective, Stage 4 – to off-road vehicles

#### **A1c. Summary description:**

Development and introduction of a new diesel engines family of higher technological level with improved ecological and technological and economy ratings within the engine power range between 80 hp and 350 hp

## **A2. Progress Status:**

The design is defined

Manufacture development

Financing on equipment purchase is required.

## **A3. Organizations involved and their roles (contact person, telephone and fax numbers, E-mail, Web page):**

OJSC “Minsk Motor Plant”, Technical Director and Deputy General Director for Development of PA “MMZ”- OJSC “MMZ” – Igor K. Anushkevich.

Tel: 375 172 301114, Fax: 375 172 301362, E-mail: [general@po-mmz.minsk.by](mailto:general@po-mmz.minsk.by)

## **A4. Project Description (approach, tasks, components, results, stages, terms, general financing, advantages, influence on the economy transient processes etc.):**

The project realization will ensure meeting of the declared demand of Belarusian companies in engines, expand the promotion of the new diesel engines in the home and foreign markets, establish partnership relations with potential customers, preserve the company personnel, create new jobs. Sales markets: the Republic of Belarus, Russian Federation, CIS countries and distant foreign countries  
The production organization principle: Manufacture, assembly and testing to be done
